SPRING BEDDING PLANTS

Delivery around 16th May 2020

High quality plants from the same top nursery supplier as previous years

Over the last few weeks we have been in discussion with the nursery that supplies us for our bedding plant sale. We are working together with them to try and ensure that the **plant sale will go ahead!** Our supplier is one of the top nurseries in the country and they have always supplied us with very good quality plants. We choose not to supply the plants until mid May to help reduce the risks from frost as far as possible.

To achieve this, I am writing to let you know that we are accepting **ONLINE ORDERS ONLY**. You can download the form from the website. Please do **NOT** make any payment at this point in time but do make sure you get any orders to us by 25th April, e-mailing them to Andrea. Also note that we will be providing **DELIVERY ONLY**, so you should remember to add £2 delivery charge to your order. Deliveries are planned to be from the 16th May onwards and will be dropped outside your front door, back gate etc.

Obviously, we must follow the Government guidelines at the time, so we will only ask for BACS payment once we are confident that we can complete the deliveries and ensure everyone's safety.

The group have discussed the continuation of the 2020 Plant Sale in depth and felt that it will give much needed support for the nursery and hopefully provide welcome distraction to our 3rd Ashton friends and family in these testing times.

You can also download the order form from our website <http://3rdashton.com/plants> and email your order to andrea.morgan@worldline.com

To allow time to place the bulk order we **must receive all orders by SATURDAY 25th APRIL**

You can help us raise much needed funds by ordering your spring bedding plants through our Group. All of the funds raised will be used for the benefit of our young members. Why not ask your family, friends, colleagues and neighbours. You can download additional order forms by following the link above or contact us by phone for more.

Thank you very much for your support, it makes a real difference to what we are able to achieve.

Please keep this page for information (Pictures below are plants we are hoping to be available. Actual colours or plants may vary)
